Static Control Attends Business Inform Expo 2016 *Given Award for Focus on Quality*

Sanford, N.C. – (June 16, 2016) – Static Control, along with TEKO, its official distributor for Russia, recently exhibited at the fifth annual Business Inform Expo held Moscow, Russia on May 24-26. In addition to meeting face-to-face with customers, the show provided an opportunity to showcase new products and discuss the latest innovations.

Sophie Lillie, Static Control’s Distribution Manager for Eastern Europe, presented “Innovation, Quality & Consistency, Opportunity” which recapped the most recent developments at the company.

“We wanted to share our experience and our dedication to working with remanufacturers and imaging providers to develop the products that are needed and requested,” said Static Control’s Vice President of Distributor Markets Juan Carlos Bonell. “Each new product offers an opportunity for businesses to save money compared to OEM supplies and expand product inventory.”

Static Control’s toner development manager Patrick Livengood also spoke at the expo. His presentation on advances in low melt toners for new color and monochrome printer/MFP applications showcased the Static Control toner development process and what the future will bring.

“With the fuser temperatures being lowered in many printers, it is important for the aftermarket to be able to develop high quality, low melt toners,” said Livengood. “In 2015, we achieved this when our team launched the first polyester CPT set, PolySphere, and we are planning to release several new color and monochrome PolySphere formulation throughout this year.”

Static Control was also presented with a “Focus on Quality” award.

“We take quality seriously,” said Bonell. “The steps that we take to deliver a quality product are unmatched in the industry so to be recognized for this is an honor.”

###

Static Control is the largest manufacturer of aftermarket imaging systems and components supporting cartridge remanufacturers within the global laser and ink jet industry.
