PRESS RELEASE

Static Control Acquires Certain Assets of Ohio-Based Ink Technology Corporation
Inks To Be Manufactured at Sanford, NC Headquarters

Sanford, N.C. – (April 26, 2017) – Static Control has acquired certain assets of Ink Technology Corporation of Cleveland, Ohio. All ink formulations formerly produced by Ink Technology will now be manufactured at Static Control’s North Carolina headquarters.

“This acquisition will allow Static Control to continue to expand our already extensive product offering to the imaging aftermarket,” said Anthony Causey, Static Control’s Vice President of Product Management. “Ink Technology has had a long history of providing excellent quality inks, and we look forward to continuing that tradition at Static Control.”

Static Control customers will have the opportunity to purchase new ink products within a matter of months, according to Causey. “Ink Technology customers can expect the same high quality product, now paired with Static Control’s award-winning customer service and technical support.”

Production and manufacturing of all of Ink Technology Corporation’s formulations will be moved to Sanford, NC.

To learn more about Static Control’s growing line of ink products, contact a sales representative.

UPDATE: This version corrects the name of Ink Technology, along with the clarification that Static Control has acquired certain assets of Ink Technology.

###

Static Control is the largest manufacturer of aftermarket imaging systems and components supporting cartridge remanufacturers within the global laser and ink jet industry. Sales and distribution facilities are located worldwide. Research, development, engineering and manufacturing as well as global distribution are located at Static Control’s world headquarters in Sanford, North Carolina, USA. Static Control manufactures in-house more than 10,000 imaging products and offers a product catalog of more than 14,000 imaging products to the aftermarket industry.
